Everything has been planned and organized and now it's time to enjoy and start your journey with us. Welcome to Uganda! After introducing you to your guide and answering your questions, we'll take you out to show you all that this amazing country has to offer.

Entebbe and its international airport provide a wonderful introduction to Uganda. The airport is practically lapped by the waters of Africa's largest lake, while the town's jungle-like setting gives it plenty of atmosphere. Once you're settled in here, you can enjoy some fabulous bird watching – fish eagles shriek overhead and turacos chatter in the forest – or head to any of several waterside restaurants for a relaxed meal or drink.

Murchison Falls National Park

Described as the most exciting thing to happen to the Nile along its 6,000km journey from Lake Victoria to the Mediterranean, the 43m-high Murchison Falls is also the centerpiece of Uganda's largest and oldest national park. Here you might encounter four of the Big Five (lion, leopard, elephant and buffalo), along with the world's largest population of the endangered Rothschild's giraffe, and several types of antelope and monkey. Particularly noteworthy among 550-odd recorded bird species are the hulking great shoebill and Abyssinian ground hornbill, and the beautifully marked and very localized white-crested turaco and red-headed lovebird.

Evening Game Drive, Murchison Falls National Park

You'll love the warm light and cooler temperatures as we take you out to explore on your evening game drive. This time of day is when both predators and prey are most active and it can feel as though anything could happen at any moment. This is when you'll most enjoy being on safari.

Set on fertile volcanic soils studded with beautiful crater lakes, Kibale National Park protects a 766km² tract of mid-altitude rainforest extending northwards from Queen Elizabeth National Park. Here, you can look forward to seeing a wide variety of monkeys, birds and butterflies, but the star attraction is a 1,000-strong population of chimpanzees, and their hysterical pant-hoot vocalizations, which carry deep into the forest interior.

Night Game Drive, Queen Elizabeth National Park

You'll see a very different side of the African bush on a night drive. Away from the city lights, the night sky glitters overhead, while your guide will use a spotlight to pick out the reflective eyes of nocturnal creatures such as leopard, genet, porcupine, bushbaby and owl.

Accommodation

Kikorongo Safari Lodge

Back in Queen Elizabeth National Park, you get the opportunity to look for some of the wildlife you missed first time around.

Early Morning Game Drive, Queen Elizabeth National Park

Imagine being out in the soft, early morning light, wrapped in a blanket, just as the animals emerge from their night's rest or from the shadows of their nighttime adventures. The world feels fresh and new on an early morning game drive, the sun has yet to beat down upon the earth, and it may end up being your favorite time to be out on safari.

Boat Trip, Kazinga Channel

We join a boat trip following the Kazinga Channel to its confluence with Lake Edward. Hemmed in by steep walls and set below the glacial Rwenzori peaks, Kazinga is home to large numbers of hippo, as well as elephant, buffalo, waterbuck and Uganda kob. Lion, leopard and giant forest hog are more occasional. The birdlife is reliably fabulous.
